

1. What is a Prepaid Card?

A prepaid card is a network-branded payment card that can be used at merchants and ATMs displaying the network acceptance mark. Unlike a credit card, it does not require a bank account or accrue interest. Funds are loaded onto the card in advance, and every purchase or cash withdrawal deducts from the available balance.

2. Where can I use my Prepaid Card?

You can use your prepaid card:

- At millions of merchants worldwide
- For online purchases
- At any ATM displaying the network acceptance mark

3. How does the Prepaid Network card work?

It works like any other network-branded payment card:

- Make purchases at point-of-sale terminals.
- Withdraw cash from supported ATMs.

4. Who can get a prepaid Network card?

Anyone aged 18 or older who complies with Andaria's Terms and Conditions may order a prepaid card through participating merchants.

5. How can I minimize ATM-related fees?

- Choose ATMs carefully since fees vary.
- Withdraw the maximum amount allowed per transaction.
- Do not attempt to withdraw more than your available balance, as failed withdrawals may still incur fees.

6. What foreign exchange (FX) rate is used?

Exchange rates are calculated at the time of the transaction using:

- Daily network exchange rates
- Applicable merchant or ATM fees
- Other processing entity fees

7. Why haven't I received my card yet?

Delivery typically takes:

- Up to 10 business days in Europe and North America
- Up to 30 business days elsewhere

If this time has passed, contact Customer Support.

8. Why can't I log into my card account online?

- Ensure your username and access code are entered exactly as created (they are case-sensitive).
- If you've forgotten your access code or still cannot log in, contact Customer Support.

9. Who can use the card?

Only the named cardholder whose name appears on the card is authorized to use it.

10. How does my card work at an ATM?

Before using an ATM:

- Upgrade your card if ATM withdrawals require verification.
- Activate your card.
- Ensure funds are loaded.

Use ATMs displaying the network acceptance mark and choose **Current** or **Checking** if prompted for an account type.

11. Can I use the card on the internet?

Yes. The prepaid card can be used anywhere the network is accepted online.

12. What is a pre-authorization hold?

Some merchants temporarily reserve funds before completing a transaction.

Examples:

- Hotels
- Restaurants
- Car rentals
- Gas stations

Unused held funds may remain unavailable for up to eight days.

13. What should I do if my card is lost or stolen?

Immediately:

1. Log into CardPortal and block the card.
2. If unable to log in, contact Customer Support or call the provided support number.
3. Have your SAN or card number and access code available.

14. Can I use my card without money on it?

No. The card must be activated and loaded with funds before use.

15. How do I use a balance that's too small to withdraw?

Ask a merchant to charge the exact remaining balance to your card, then pay the remaining amount using another payment method.

16. I just received my card and it isn't working. Why?

The card must first be activated through CardPortal. If problems continue, contact Customer Support.

17. How do I activate my card?

1. Use the activation email and access code.
2. Log into CardPortal.
3. Update your personal details.

4. Your card becomes active.

You may later upgrade your card by submitting proof of identity and address.

18. I lost my activation email or access code. What do I do?

Contact Customer Support or use the **Forgot Access Code** option on the CardPortal login page.

19. What's the difference between my Access Code and my PIN?

Access Code

- Used to log into CardPortal.
- Can be reset.

PIN

- Used for ATM withdrawals.
- Used for purchases requiring PIN verification.

20. How do I check my card balance?

Log into CardPortal:

1. My Account
2. Manage My Account

Your balance appears beside your card.

21. Why isn't my balance what I expected?

Possible reasons:

- Same-day transactions haven't appeared yet.
- Outstanding merchant authorizations.
- Delayed merchant settlement (often up to eight days).

22. Do I receive statements?

No. Transaction history and balances are available online through CardPortal.

23. My card has stopped working. Why?

Possible causes include:

- Card damage
- Card expiration
- Daily spending limits reached
- Insufficient funds

If none apply, contact Customer Support.

24. Is my prepaid card safe for online purchases?

Yes, provided you:

- Shop only on secure (HTTPS) websites.
- Log out after use.
- Never share your PIN.
- Ignore requests for card details by phone or email.

25. My card is about to expire. What should I do?

Contact the company that issued your card to request a replacement.

26. What is the difference between a Card-to-Card Transfer and an Email Money Transfer?

Card-to-Card Transfer

- Requires the recipient's card number.

Email Money Transfer

- Requires only the recipient's email address.

Both cards must be in the same currency.

27. What are the Security Question and Security Answer used for Email Money Transfers?

The sender creates a security question and alphanumeric answer. The recipient must know the answer to claim the transferred funds.

28. What is the card SAN?

The SAN (Security Account Number) is the 9- or 10-digit number located on the lower-right corner of the back of the card.

29. What is a Virtual Card?

A Virtual Card is a digital version of your prepaid card used for:

- Online purchases
- Telephone payments
- Receiving funds

30. Why upgrade to a plastic card?

A physical card allows:

- Point-of-sale purchases
- ATM cash withdrawals

31. How do I upgrade to a plastic card?

Log into CardPortal:

1. Manage My Account
2. Request Plastic Card

Delivery typically takes 10–15 business days.

32. When is the monthly fee charged?

If activated:

- Between the 1st–14th: fee begins at the end of that month.

- Between the 15th–end of month: fee begins at the end of the following month.

Monthly fees continue on the last day of each month.

33. When is a Dormancy Fee charged?

A dormancy fee is charged after a specified period of inactivity (no loads, unloads, or balance-affecting transactions). Once dormant, the fee is charged monthly until activity resumes. The inactivity period is listed in your CardPortal Fee section.
